**NEW HOME / PRINCIPAL BUILDING
PERMIT APPLICATION WORKSHEET
FEE SCHEDULE**

ITEM	DESCRIPTION	FEE – OFFICE USE
A	Development Permit Application ¹	
B	Water/Sewer Hook-up Fees ²	
C	100% Refundable Development Bond ³	\$3,000.00
D	Other / Adjustments (+,-) ⁴	
	TOTAL DUE⁵	

NOTES:

1. If a Municipal Planning Commission (MPC) decision is required for the development, there will be additional fees to take the application to the MPC for a decision (for example, a requested waiver to the minimum setbacks outlined in the Land Use Bylaw No. 1284).
2. Hook-up fees – Sewer - \$1,225.00 and Water - \$1,225.00 (These rates are the current rate for 2026. If the hook-up is not completed this year, the prevailing rate will be applied.)
3. The refundable Development Bond will be held in trust by the Town of Magrath and is repayable to the applicant upon completion of the conditions required as outlined in the Development Permit and Construction Compliance Certificate and within the permit/extension time frame.
4. Any adjustments necessary are to be calculated by a Town of Magrath representative.
5. Total Due will be the summation of Items A - D to be calculated by the Town of Magrath Representative.

**Town of Magrath
Excavation Application**

Excavation Overview

An Excavation Application is required for any excavation in Town-owned Right-of-Way (ROW) or Utility ROW to a depth of 0.3m or more. The guidelines ensure proper restoration, safety, and efficient ROW use. Contractors must also complete the pre-qualification checklist for new installations or re-alignments.

Application Process

Please submit this form **at least 3 business days before** starting work:

Item	Details
Contractor's Name:	
Site Supervisor's Name:	
Property Owner's Name:	
Detailed Work Plan (Description, Dates, Locations):	
Proof of Insurance (minimum \$2M coverage): Please provide proof of insurance with a minimum coverage of \$2 million. This proof must be submitted along with the application to ensure compliance with the Town of Magrath requirements before the commencement of excavation work.	
Valid Town Business License:	Yes / No
Traffic Accommodation Plan (if applicable):	Yes / No
WCB Coverage in Place:	Yes / No Policy#: _____

Submit to: Operations Manager - trevor@magrath.ca or 587-220-1095

A copy of the detailed work plan and proof of insurance must be submitted to the Operations Manager with the application. Please notify Trevor before any excavation work begins to ensure proper coordination and approval. Any repairs required by the Town of Magrath due to work performed by the contractor will be the contractor's responsibility and charged accordingly. The contractor must rectify any deficiencies or damage caused during their work, and all associated repair costs will be billed directly to the contractor.

Safety Overview

- Utility Location: Use Utility Safety Partners
- Work Zone Safety: Maintain traffic safety barriers
- Safety Plan: Must be discussed with and approved by the Town of Magrath.

Project Completion

- The Town of Magrath must sign off on all work before any backfilling is started.
- Must be backfilled to the original grade.
- Warranty & Remedial Work
- Warranty: 2 years on excavation and repairs; inspections required for installations >100m.
- Remedial Work: Complete within 30 days if identified by Town policies.

General Conditions

- Notify relevant public services before work begins.
- Contractors must list all subcontractors.
- Maintain unrestricted access to businesses/residences unless approved otherwise.

Company Acknowledgment

By signing below, the undersigned confirms that they have read, understood, and agree to the terms of this contractor agreement on behalf of the contractor and their employees. The undersigned is responsible for ensuring compliance by all employees, agents, and subcontractors.

Failure to comply with the agreement may result in removal from the job site. The contractor agrees to hold the company harmless from any claims, demands, liabilities, losses, expenses, lawsuits, or actions (including attorney fees) arising from the contractor’s actions or those of their representatives.

INSTRUCTIONS FOR A NEW HOME CONSTRUCTION

- 1) **Water & Sewer** – Options for connecting to the Main line
 - a) You may contract a **Town-approved private company** to install your water and sewer service connection lines from the main line location to your home. This is typically coordinated with the excavation of the foundation.

(NO CONTRACTOR OR PRIVATE COMPANY MAY TAMPER WITH THE MAIN LINE OR SERVICES IN ANY WAY UPSTREAM OF THE WATER SHUT OFF (CURB STOP) OR DOWNSTREAM OF THE SEWER INSPECTION CHAMBER, RESPECTIVELY)
 - b) You may request that town crews quote and install your water and sewer service connection lines from the main line location to your property line and have your contractor dig in from the property line to the house. However, due to the volume of work and the timely deadline for digging the foundation, it is recommended that Option a) be utilized in most cases.

NOTE: It will be the responsibility of the applicant's plumber to tie the service lines into the structure's plumbing, regardless of which option above is chosen.

- 2) **Water Meter** – you will be required to install a 5/8" dia. radio frequency Neptune Water Meter. This can be picked up at the Town of Magrath Public Works Shop at 258 North Centre Street for your contracted plumber to install according to the Alberta Building Code and any manufacturer's recommendations.

NOTE: Please contact the Town Office at 403-758-3212 to ensure a utility account is set up when you pick up your water meter, and that the unique registered meter ID is assigned to the newly created utility account.

- 3) **Excavation** – When excavating for the development, all material must be contained within the boundaries of the development property. No fill may be placed on an adjacent lot, even if the lot is vacant.

When it is necessary to excavate into an existing road or Town Right-of-Way, an *EXCAVATION APPLICATION* must be submitted to the Operations Manager and approval received before any excavation begins.

- 4) **Water Activation** – Only Town of Magrath Public Works staff may turn on the water to your new home. Your plumber will be responsible for installing your Water Meter. Once the Water Meter is physically installed, you may schedule a time with the Public Works for your water to be turned on.

To have your water activated, you must contact the Town of Magrath Administration Office. Once your request is received, you will be put in touch with Public Works to arrange to have your water turned on and activated. Once your water is turned on, your water account will commence billing.

NOTE: The Town of Magrath Public Works will not activate your water without the following:

- a) Your home's heating source is fully activated and functional.
- b) Someone is present and available on-site (preferably your plumber).

- 5) **Water Use in Drywalling** – Please note that you are responsible for ensuring your drywallers are not cleaning their tools in sinks or allowing the drywall mud and mess to go down your drain or sewer line, as you will be responsible for any sewer clogging or backup that results from it.
- 6) **Safety Code Permits & Fees** – In building a new home, you are responsible for ensuring the proper permits and inspections are obtained at the appropriate stages of construction (i.e. Building, Electrical, Gas, & Plumbing). The costs of these permits vary according to the size and complexity of the project and will be calculated upon submission of the completed permit applications. The costs of these permits cover all inspection costs related to the project, as conducted by The Inspections Group Inc.
- 7) **The Inspections Group Inc.** – Is employed by the Town of Magrath to enforce the Alberta Safety Code. Therefore, your safety inspections must be scheduled with The Inspections Group Inc., starting with your foundation inspection through to final inspections. Further, all safety code questions should be directed to The Inspections Group Inc., as they are the safety code specialists. To ask a safety code question or to schedule an inspection, please contact The Inspections Group Inc. directly at 587-787-4143.
- 8) **Home Occupancy** – You may **NOT** occupy your completed home until you have acquired a *HOME OCCUPANCY PERMIT*. Included with this letter is a copy of your original *CONSTRUCTION COMPLIANCE CERTIFICATE*. The bottom portion of this form must be submitted and approved for you to obtain a *HOME OCCUPANCY PERMIT* before occupying the home. The cost of this permit is **FREE**. However, should you occupy your new home (including moving in possessions) before receiving this permit, you may be assessed a **LATE APPLICATION FEE** of **\$500.00**.

NOTE: It is recommended that you submit the bottom portion of the *CONSTRUCTION COMPLIANCE CERTIFICATE* a minimum of ten (10) working days before your planned occupancy date to allow sufficient time for the Occupancy permit to be approved by the Town of Magrath.

DEVELOPMENT APPLICATION SUBMISSION PROCESS AND REQUIREMENTS

NEW PRINCIPAL STRUCTURES

At the Town of Magrath, we strive to make the application process for development straightforward and easy to understand. Most applications for principal structures without variances (such as new homes) generally take about 3 days. This processing time is delayed significantly when applications are missing information.

In general, the permitting process is as follows:

1. Complete application documents are submitted to the Town of Magrath Development Officer.
2. All fees are paid in full.
3. Application is reviewed for completeness.
4. Drainage Plan is reviewed by engineers for compliance with Town of Magrath regulations and cross-referenced to any pre-existing neighbourhood drainage plan(s).
5. Development Permit is issued. You will note on your issued Development Permit that there is a 21-day appeal period. If the developer desires to commence work before the appeal period is complete, they may sign a "Voluntary Waiver of Claim" form. This allows them to commence work before the specified appeal deadline, with the understanding that any work would cease if an appeal is made. In addition, if a permit were appealed and the application is denied upon a successful appeal, any improvements would have to be removed at the applicant's expense.
6. Notice is sent to the applicant and the Engineer on file that approval has been given to commence staking the development site.
7. The applicant then applies for all the safety code permits (Building, Electrical, Gas, Plumbing) through **The Inspections Group Inc.** (587-787-4143).

Before you move into your new building, you must:

1. Arrange with The Inspections Group Inc. for all final inspections.
2. Apply to the Town of Magrath for a Construction Compliance Certificate at least 10 working days before you intend to move in. Please include the dates that final inspections were **passed**, as well as provide photos of the water meter installed, downspouts, and permanent house numbers affixed to the exterior that are required for this permit.

The Municipal Government Act (MGA) requires all municipalities to note when an application is “complete”. As such, we have compiled a list of items that should accompany any development permit application.

This is not an exhaustive list, and the Development Authority may request additional information that is required to assess the application.

- One 11” x 17” copy of an **Engineered Site and Drainage Plan**, which shall provide the following information:
 - Legal description and municipal address of the subject property.
 - Scale and North Arrow.
 - Adjacent roadways and lanes.
 - Lot dimensions, lot areas, and percentage of lot coverage for all structures.
 - Proposed building with dimensions of foundation and projections, including decks.
 - The proposed distances from the foundation of the building to the front, sides, and rear property lines.
 - Location of any registered utility rights-of-way or easements.
 - Location of driveway, including dimensions.
 - Elevations.
 - Downspout placement.
 - Arrows showing the direction of water flow.
 - Adequately addresses all stormwater requirements for the lot.

- One 11” x 17” copy of your **Building Plans/Construction Drawings**, which shall provide the following information:
 - Scale and dimensions of exterior walls and interior rooms.
 - Floor plans of all living spaces proposed to be developed.
 - Building elevations, including building height (from finished grade), roofing material, and roof pitch.
 - Any other proper construction details and drawings.

- Engineering completed for the **Sewer and Water Connection to the Main Line** (if the lot is not pre-serviced).

- Access and Landscaping plan submitted.
- Copy of the **Home Warranty Proof of Coverage or Exemption** (see www.homewarranty.alberta.ca) or call Municipal Affairs at 1-866-421-6929.
- Any other proper construction details and drawings.
- Application fees payable to the **Town of Magrath** (*please note that ALL fees must be paid before the application is considered complete*).

Average Costs for a Single Detached Dwelling (permitted Use):

Development Permit	\$100
Water/Sewer Hook-up Fees	\$2,450

- A refundable Development Bond of **\$3,000** is required to be paid at the time of application. This fee will be refunded once all exterior finishes, landscaping, and any other conditions of the development are completed and within the permit/extension time line.

Please note that the completion of landscaping includes grass on a minimum of 25% of the front yard (eco-scape, zero-scape, or other alternative landscaping design greater than 75% requires Town of Magrath approval).

TERMS:

1. Subject to the provisions of the Land Use Bylaw of the Town of Magrath, the term "Development" includes the making of any change in the use of buildings or land.
2. Although the Development Officer is in a position to advise on the principle or details of any proposals, such advice must not be taken in any way as official consent and is without prejudice to the decision in connection with the formal application. It must be clearly understood that any action taken before a Development Permit is received, is at the applicant's own risk.
3. If a decision is not made within 40 days from the date the application is deemed complete, or within such longer period as the applicant may approve in writing, the application shall be deemed to be refused and the applicant may exercise his right of appeal as though he had been mailed a refusal at the end of the 40-day period.
4. Construction undertaken subsequent to approval of this Development Permit application may be regulated by the provincial building requirements.
5. Any development carried out prior to the effective date of the appropriate Development Permit is done solely at the risk of the applicant and/or landowner.

ADDITIONAL INFORMATION:

In addition to the above requirements, the Development Officer may also require:

1. Proof of ownership or rights to the land in question and may require a current Real Property Report as proof of the location of development on said land.
2. Landscape information and/or plans.

Please Note: Review of a Development proposal may be delayed if the form and/or additional information provided is incomplete.

POPA Notification: Your name, phone number, address and postal code are collected under the authority of Section 4(c) of the Protection of Privacy Act.
